# SWING INTO HIGH GEAR

---

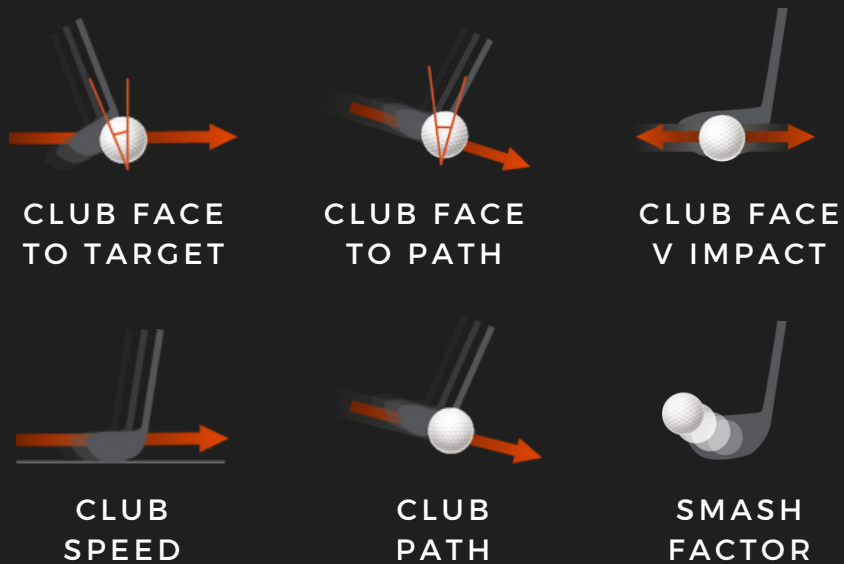

IDRA is a dual high-speed camera-based overhead launch monitor with non-marking ball technology. IDRA features stereoscopic vision technology, extreme precision for short game and putting data, as well as a large hitting zone. Simply perfect for both hobby and training purposes and providing the ultimate golf experience.

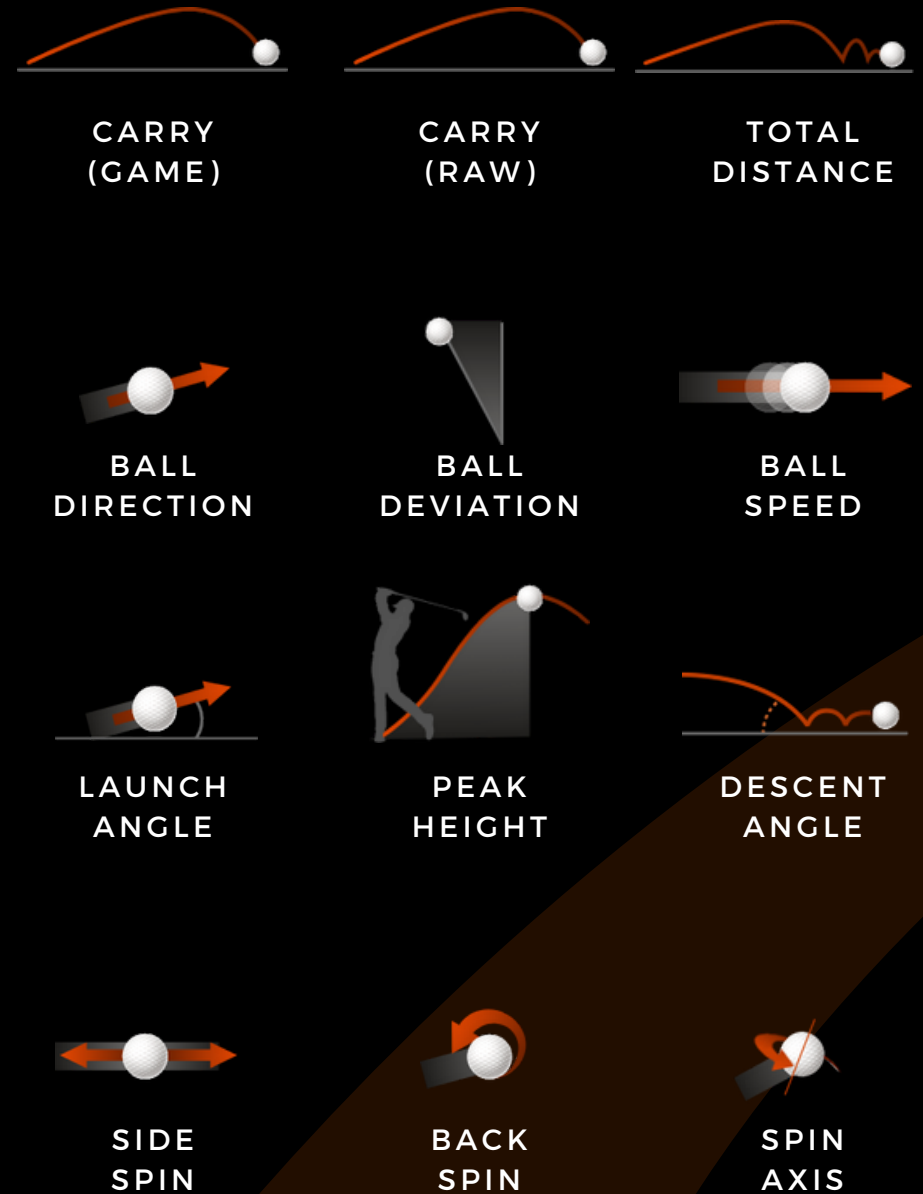

# WHAT IDRA TRACKS

## CLUB DATA

## BALL FLIGHT DATA

# EVERY DETAIL COUNTS

---

## NO REFLECTIVE DOTS

Play with your clubs and balls, no need to alter any of your gear!

## LARGE HITTING ZONE

Swing comfortably in a 32" wide by 18" deep hitting area.

## AESTHETIC DESIGN

Small and tasteful, the IDRA camera fits nicely in any decor.

## PEACE OF MIND

Enjoy a 2-year worry-free warranty.

## INTEGRATED LIGHT

Ensuring optimal visibility on your hitting zone.

## SOFTWARE FLEXIBILITY

Enjoy the flexibility to play on GSPro or E6 Connect.

## SIMPLE CALIBRATION

One time easy calibration at the first installation.

## GRAPHIC SHOT ANALYZER

Swing analyzer to easily understand your data (video replay coming soon!)

# ROOM TO IMPROVE

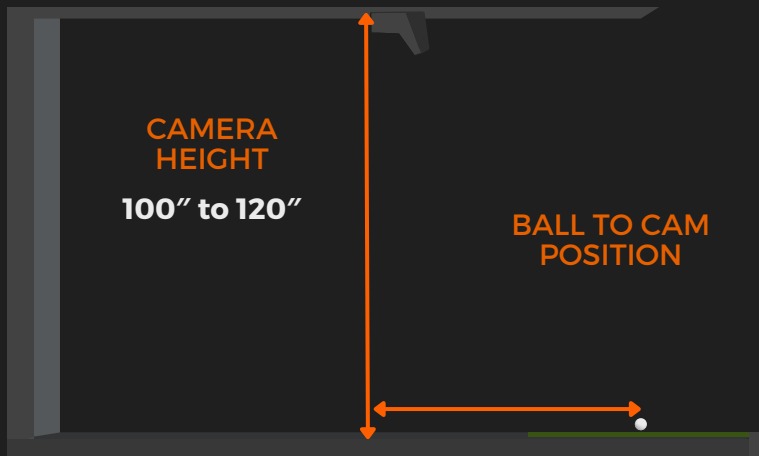

---
